Hi Chris,

I haven't had time to recreate the error I'm getting and send a screen shot of it for you all to investigate. I'm hoping I'll have more time tomorrow to do so.

Hi Jeremy and Robyn,

Were you able to resolve this bug? Just wondering...

Robyn,

I'm not throwing an error on NE. I downloaded the AVERT version from the website (v1.4 09-15-15) and pulled 2014 RDF from the website. No problems. Maybe the download of the NE RDF was interrupted when you pulled it?

Hi Jeremy,

Here is the newest Main Module file. The North East data file I used was the one pulled from the AVERT web site for 2014.

I've got to run to a meeting. But the error is about loading the data in main module..

Hi Robyn,

Here's the AVERT main module again (attached), just for the record. It's the same version you've been looking at.
